Storage System for the Mining Industry

For over 60 years, Rousseau Metal Inc., a company that is constantly growing, has been manufacturing safe, robust and high-quality storage systems adapted to your needs. Our goal is to offer our clients the very best. Regardless of your storage and organization requirements: tool boxes, workstations, heavy-duty cabinets and drawers in shelving system, we let you store more in less space. Open or closed, fixed or mobile, small or large, we can satisfy your needs with very flexible products and made-to-measure solutions.

Rousseau has developed storage solutions that successfully satisfy the requirements of underground and open-pit mines. In fact, the robustness, safety and high quality of our products is the key to our success in the mining sector. For products that satisfy your expectations, think Rousseau!

Here are just a few of the advantages of Rousseau products:

- Superior Safety;
- Heavy-Duty;
- Durable Quality;
- Increase Productivity;
- Maximize your Space;
- Ergonomic Design.

Rousseau has the solution for each sector in your mine:

- Warehouse (Storeroom);
- Maintenance and Repair Shop;
- Industrial Vehicle Maintenance Department;
- Administrative Department.

We also have specialized solutions for your field of activity and solutions for other sectors in your mine such as:

- Assay Lab;
- Geology Department;
- Nursing and First Aid Station;
- Underground Shops and Storage;
- Camp Kitchen;
- Laundry Facility.

Our network of Storage Specialist can help you find the right solution, give us a call.

The Rousseau drawer rolling mechanism is covered by a lifetime warranty

Proposal product numbers shown on the cover: R5XEE-2008, R5WH5-2051, R5GHE-3418

Warehouse (Storeroom)

More often than not, your department needs to store a lot in a small amount of space. Opt for our hybrid, multi-purpose system of drawers in shelving, which has proven its worth for 25 years. This robust system, which can be assembled quickly, makes the most of each inch of storage space possible and allows you to recover up to 70% of your space.

Our 400 lb capacity drawers are heavy-duty and high quality. We offer you a Lifetime Warranty on the rolling mechanism of the drawers. The possibilities for accessorizing your drawers with our patented clip-in partitions and dividers are endless, depending on the shape of your parts. Multiple dimensions and configurations are possible in terms of width, depth and height.

Open Shelving

SHE1024

Box-type shelves with front and rear edges that are roll formed and welded;

Shelves adjustable every inch c/c;

Welded uprights;

To order, complete the model numbers with an H (for posts with a smooth finish) or R (for posts with a perforated surface). You should also complete the model numbers with an E (for a starter unit) or a B (for an add-on unit).

Maintenance and Repair Shop

Since you are in charge of maintaining and repairing everything that could break in the mine, you must have the proper tools and a robust and functional workstation. Several arrangements are possible and a wide variety of accessories can be added both above and below the workstation to create the unit that responds perfectly to your needs. Each drawer has a capacity of 400 lb and there is a Lifetime Warranty on the rolling mechanism.

You can choose from 6 types of surfaces: painted steel, galvanized steel, laminated wood, plastic laminated, stainless steel and acrylic/PVC. With Rousseau, whether you need a basic table with an open leg and a top or a personalized workstation, fixed or mobile, we have what you need.

Multi-Purpose Workstation

R5VH5-2051

Laminated wood top;
Upper cabinet with double door;
Louvered panel for hooks or plastic bins (8 plastic bins included);

Option with louvered panels:

R5WP5-6007

Industrial Vehicle Maintenance Department

A mechanic's tool box is without a doubt their most important work instrument. The quality of the tool box should not be neglected. With its unique style, the Rousseau tool box is one of the safest on the market, with its integrated "A" lock-in mechanism on the drawers that can be activated with one hand and the true one-drawer-at-a-time system.

Mobile, they are very useful to go repair equipment that is too large to be moved or simply fixed in place, enabling you to have all your tools at the right place. Rousseau tool boxes are robust and distinctive. They are designed for intense use in harsh work environments such as mines. They are equipped with the most durable drawer in the industry, with a capacity of 400 lb and a Lifetime Warranty on the rolling mechanism. Please note that it is possible to build a tool box from A to Z. A very large number of dimensions are available, along with numerous accessories such as mag casters and stainless steel drawer fronts.

"R" Heavy-Duty Tool box

R5BHE-3401

Specialized Storage

Rousseau products adapt to everyone's realities. The quality, robustness and safety of our products are perfectly suited for the needs of an underground or open-pit mine. Starting with standard products, it is possible to create a solution that is adapted to your specific needs. Here are a few examples of applications based on Rousseau products.

Shelving Unit for Clothing

These are Spider® shelving units with SH50 shelf dividers. Each employee has his own storage space for his work clothes. Creates a tidy and orderly area.

Rack for Radio Batteries

Using Spider® shelving units, you can store all batteries and radios in a single place. This rack creates a very orderly look and your employees will no longer waste their time looking for batteries.

Rack for Lifting Equipment

Using Mini-Racking, hanging rails, and hooks, you can store all lifting equipment in a single place. Each hook has a capacity of 50 lb.

Wall Panel

WM57

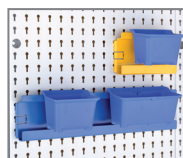

Over the years, Rousseau has developed storage solutions that satisfy the standards of the "5S" method. This Japanese technique is intended to ensure continuous improvement of the work environment. It is intended to improve organization and make the work environment functional while ensuring that each tool is in its place, clearly identified and easy to find.

Moreover, the storage solutions that we propose will help you improve working conditions and morale, while reducing the time and energy used by your personnel.
