Many possible uses

WMA1012

Storekeeper model*

WMA1031

Wire spool model

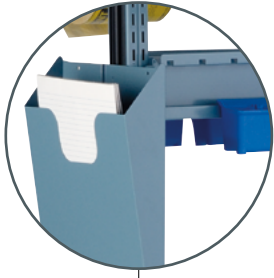

NCW0101

CNC model

Features and benefits

Increased stability can be obtained by securing the frame to the ground. Leveling glides can be used to adjust the height on uneven surfaces.

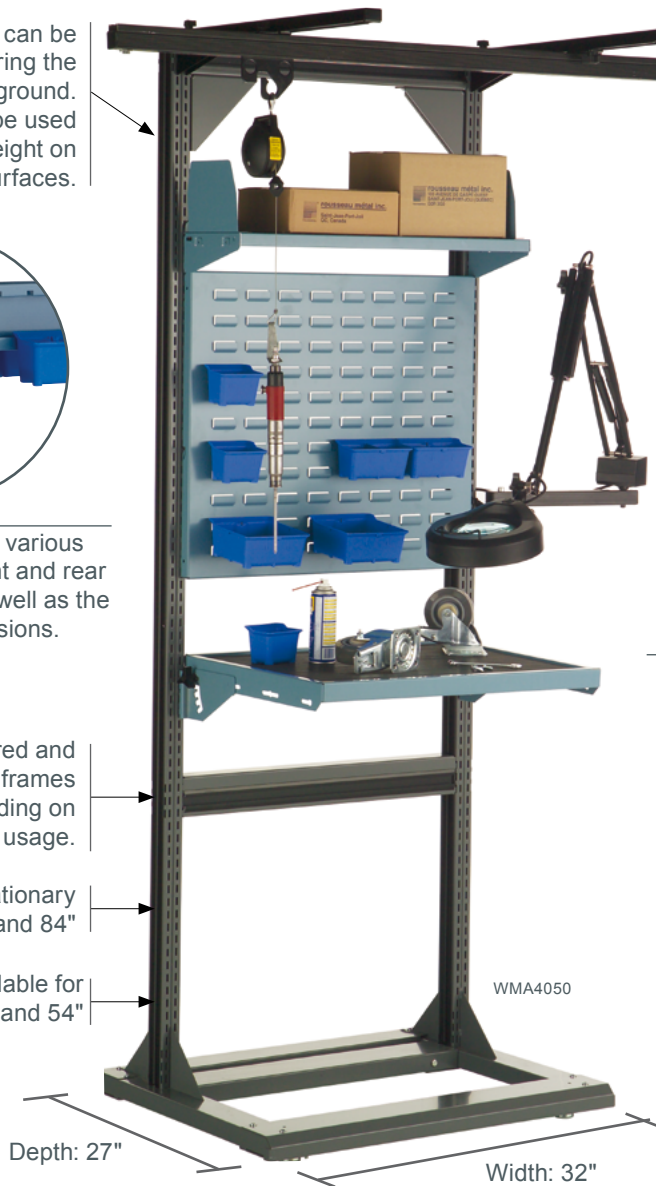

To install and adjust various accessories, both front and rear holes can be used as well as the upright side extrusions.

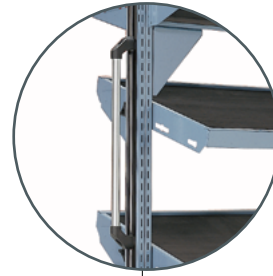

Centered and off-center frames available, depending on intended usage.

Heights available for stationary frames: 36", 54" and 84"

Heights available for mobile frames: 36" and 54"

Accessories are hung using hooks so you can rearrange them easily and without tools to suit your needs.

The handle makes moving your mobile frame an easy task.

4" and 6" casters.
